A meeting of the men higher up in the great corporation was held last night in the famous library of J. P. Morgan's up town house. It did not adjourn until one o'clock this morning. Just who attended cannot be said with certainty. Likewise what transpired at the meeting is not known. It is only known that for hours the men who hold the destinies of the billion dollar steel corporation in their hands sat in the midst of Morgan's art treasures and discussed the situation.

While no official statements were forthcoming the indications are that the government's dissolution suit will be fought to the last ditch. In the meantime United States Marshall W. Snowden of Treuton, N. J., is here today endeavoring to serve papers on

series for a hit. To Bender, the wonderful Chippe wa Indian twirler, goes the credit for pitching the initial victory. His work in the box surpassed the exhibition he gave in the first game on the Polo Grounds in New York. Three singles and a double in as many innings were all the New Yorks could garner off his delivery. The two-base hit was made by Doyle in the first inning and he scored later when Murphy muffed an easy tiy From this time the Indian was never in trouble. Devore, left fielder for New York. robbed Lord of a sure three-base hit by a great sprint, catching his long tly in center field after a long run.

Baker and Davis made sensation il running catches of foul flies and Col-lins electrified the spectators by a stop and throw of a territic grounder back of second base that no one thought he could reach.

A bit of sentiment on the part of Captain Harry Davis was cheered when he sent the injured McInnes into the game in the ninth inning. Stuffy took the last put-out and officially figured in the series. Chief Meyers also retired near the end of the game in favor of Wilson, probably for the same reason.

In the sixth the Athletics got a run on Murphy's two-base hit and two outs, and the seventh the Athletics put the world's championship in their possession. Bender opened the inning with a fly to Doyle. Lord sugled to the infield and Oldring put him on third with a single to center. Collins hit to Wiltse, who threw to Merkle, and when the latter dropped the throw Lord sprinted across the

plate. Collins was safe. Oldring scored on Baker's drive over Doyle's head and Collins went to third. Murphy pushed a single into center field and Collins went home, Baker stopping at second. Davis sent Baker home and Murphy got to third on a smash to right field and a moment later came home when Barry lifted the ball into the crowd for two bases, Davis going to third.

Manager McGraw here switched his pitchers, sending in Marquard, who let loose a wild pitch and Davis and Barry crossed the plate. Then up came Thomas, the ninth at bat in the inning, and shot out his first hit of the series, to his intense delight. Render came up and Thomas started for second and was thrown out. Meyers to Fletcher. It looked as though Thomas purposely went out to quickly end the inning. Bender struck

After that big inning the Athletics did not appear to try hard. All interest in the outcome of the battle was gone and the big crowd started homeward. There was no more scoring until the ninth, when Herzog scored on his single, a poor throw a wild pitch and Bender's out.

When the game was over that part of the crowd which did not leave the ground before the game was ended remained and held a celebration hey cheered the players who had dived under the grand stand the instant the last man was out and gave three cheers for Connie Mack, who has won four American League pennants and two world's championships for Philadelphia.

Ban Johnson, president of the American League, was all smiles after the game. "Delighted," was the only comment he had to make.

Mayor Swartz will be Mayor for all the people of the city, and his administration will not be dictated by a faction of a party.

FRANK MUENZ

It generally requires a new member of the city council a long time to acquire that grasp of municipal legislative affairs, which entitles him to rank among those who naturally take leadership in the making of the city's laws; but such was not so in the case if Frank Muenz, who is a candidate for election to that body from the Fourth ward. He was selected by the council last year to take the place of Mr. Elmer Orr, who was elevated to the presidency of council, upon the resignation of Hon. W. D. Fulton, For the first few meetings Mr. Muenz was observing of the methods of procedure, and took an active interest in them. at the same time informing himself as to the condition of affairs in every department of the city's administration. He represented a very important portion of the city, which included the big Wehrle foundry, with the vast real estate interests of that portion of West Newark that includes this industry. Mr. Muenz is a molder himself and a foreman at the foundry. He is a warm friend of the laboring man, and is always alert to the passage of any legislation that will di-

rectly or indirectly benefit them. rectly or indirectly benefit them.

Mr. Muenz soon became known in the council as a member who "did things," and a number of important ordinances and resolutions have been drawn, introduced and passed through his efficient work. He is close to his constituents, and is never too busy to take up any matter brought to his attention by the humblest as well as the most influential among them.

It is of course, true that this experience will tend to make him even a better councilman than no has been and of more value to his ward when he is returned by the Democrats and independent voters of the Fourth.

ASSESSORS

The four candidates for assessor on! Ithe Democratic ticket are John D Williams, Henry Boner, David W. Evans, and Emmanuel Blount, men a 100 or a troller out who are known to be conscientions in the discharge of any duty that devolves upon them, and as several of them have served in the same canacity before, valuable experience will be added to other qualifications.

This office under the present tax laws, is of importance and men should be elected who will perform the duties faithfully, and without favor or par-

Of course Mayor Swartz will have EVEN THE MOST a good solid Democratic Council to aid and support his administration. The people understand the value of this thoroughly and the Advocate's articles in behalf of the Democratic candidates for Council only adds to the knowledge that Newark voters already possess.

JULIUS JUCH

For a number of years, there has been no man in Newark who has taken a deeper and more intelligent interest in municipal affairs than Jehus Jech, who is a candidate for whus Juch, who is a candidate for nose, catarrhal affection, soreness, councilman from the newly organized suffiness and rheumatic twinges. THE IDLE RICH.

The idle rich are trifling folk whose only end and aim is just to make this life a joke, and play it as a game; they bore themselves the long year through with pleasures stale and coarse, and when there's nothing else to do they seek for a divorce I can't admire those sporty gave who laugh at love and law, and try to show that marriage ties are fetters made of straw. To swap their wives they go to court and keep then lawvers hourse; there's something wrong with javs whose sport is incelling for divorce. The idle rich who never carned a dollar of their pile aren't worth the gasoline scorching half a mile. Some fresh sensations still they seek, at ring or racing course, and go to court three times a week to ask for a divorce. One honest working man who comes with shovel in his hand, outvalues all the gilded bunns in this wealth-rotten land. The man who has his work to do remains a moral force, and ought to shame the idle crew whose pastime is divorce.

A LEGACY OF

Don't Let the Debility Which Follows an Attack of the Grip Make an Invalid of You.

After an acute attack of the grip the patient is frequently lett in a condition that may mean a lifetime of miscry if proper precautions are not taken to restore the blood and drive out the lingering poisons that cause the so-called "after-effects" of the disease.

The grip leaves behind it weakened

vital powers, thin blood, impaired digestion and over-sensitive nerves—a condition that makes the system an easy prey to pneumonia, bronchitis, rheumatism, nervous prostration, and even consumption. Too much stress cannot be laid on the importance of strengthening the blood and nerves during convalescence.

"I came down with the grip," says Mrs. R. M. Williams, of Esty, Mich., "and, taking cold when I got up, was sick for two months. I was confined to bed for over three weeks and was practically helpiess, having to be turned over in bed. I had no appetite, lost in flesh and had no color. The doctor said I would not be able to get around for a year at least but after being under his care for several weeks and getting no better I began using Dr. Williams' Pink Pilis for Pale People. I had taken them before as a tonic with benefit. They relped me during the first week and I took them regularly until cured. I um certain Dr. Williams' Pink Pills for Pale People saved me from being a

helpless invalid for life.

Dr. Williams' Pink Pills for Pale People are a certain blood-builder and are especially adapted for the treatment of diseases arising from a lack of blood. Their work is to make new blood. That they do this well is shown by the gradual disappearance of the symptoms and the return of color and strength. They lay the foundation for permanent

health in the future.
These pills have cured anemia, rheumatism, indigestion, neuralgia, sciatica, general debility and nervousness and are recommended wherever a bloodbuilder or a tonic for the nerves is needed. A valuable booklet, "Diseases of the Blood," will be sent free upon request to any one interested.

Dr. Williams' Pink Pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenccady, N. Y.

A CERTAIN CURE FOR CATARRH

The mucous membranes of the nosc and throat are exposed to the irritating influence of dust, impure air, etc., and for this reason are the places Catarrh usually first manifests itself. But these are simply exciting causes the inflammation and discharge being really produced by an impure and vitiated condition of the blood. It is well enough to use some local treatment to cicause these membranes, but any one can readily see that if the inflammatory matter is left in the blood, such treatment cannot possibly o'clock and 5.30 o'clock for the purpose of registering and transferring have any permanent effect. S.S.S. cures Catarrh by cleansing the blood of all impure catairhal matter and irritating germs and at the same time huilds up the system by its fine toni effects. When S. S. LIVING THOUGHTS.

Make yourself nests of pleasant thoughts. None of its yet knows, for none of us has been taught in early youth, what falry pataces we may build of beautitul thoughts, proof against adversity bright fancies, satisfied memories noble histories, faithful savings, treasure houses of precious and restful thoughts which care cannot disturb nor pain make gloomy nor poverty take away from us-houses built without hands for our souls to nve in -- Ruskin.

train, brother of Mr. J. D. Smith of on the stomach," and a most distressing state of things it is, It is a serious condition of this great motor organ. Always annoying and painful in the extreme, at times often leading to bad and fatal results. The stomach embarrassed and hampered with wind cannot take care of its good properly and indigestion follows, and this has train too appalling to enumerate. The entire system is implicated-made an active or passive factor in this trouble and life soon becomes a questionable

All this is explained in doctor books how undigested food causes guses by fermentation and fomentation in which process some essential fluids are destroyed-burnt up-wasted by chemical action, followed by defective nutrition and the distribution through the alimentary tract of chemically wrong elements and as a consequence the stomach and entire system is starved. Plenty of food, you see, but spoilt in preparation and worse than worthless

A deranged stomach is the epitome of evil; nothing too bad to emanate from it, but the gas it generates is probably its worst primary effect and the only way to do away with this is to remove the cause. Stuart's Dysly verified through research experifamily of Curtis Frye, 138 South Sectouble. They attack the gas-making ful and wonderworking little tablets are in evidence.

They were made for this very purnumerable and at last success. It would make mention of the different stomach correctives that enter into this tablet and make it faihfully rep-

POSTOFFICE CLERK

Tolodo, O., Oct. 27.—Systematic thefts of hundreds of donars mailed in small amounts to the Toledo office of the Anti-Saloon league, resulted in the arrest of Howard K. Leonshall, a clerk in the Toledo postoffice for 14 years.

Leonshall was caught by a decoy letter. When arrested the marked bills were found in his possession. He pleaded guilty before United States Commissioner Gaines today and was bound over to the grand jury.

KENT RESIDENT HAS PASSED THE CENTURY MARK

Kent, O., Oct. 27.—Hundreds of Kent and Portage County people turned out yesterday to pay tribute to George Washington Austin on his one hundred and third birthday anniversary. He was taken to the home of Mr. and Mrs. W. S. Kent, where he received his triends.

Mr. Austin was born at Hartford, Coun., Oct. 26, 1808. His father served in the war of 1812, and died in 1817, leaving a widow and four They came west to Pittsburg, and then to this county in 1819 where they spent the rest of their days. George learned carpentering and helped to build many of Portage County's high steepled churches. He worked on the first courthouse erected in the county in 1828.

Mr. Austin walks a mile every day rain or shine, keeps posted on the atlairs of the day, instead of living wholly in the past and maintains a cheery disposition. To the latter he says, he owes his longevity.

He was given a purse of \$103.

DON'T PULL OUT THE

A Few Applications of a Simple Rem-edy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place," is an old saying which is, to a great extent true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single

streak of gray.
When gray hairs come, or when the hair seems to be lifeless or dead some good, reliable hair restoring treatment should be resorted to at once, Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched bair, removes dandruff and gradually restores faded or gray hair to its nat-

ural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your

THE TEXAS

To Be in Newark But a Few Days

The Texas Land Car, located opposite the B. & O. Depot, will, in all probability, leave Newark on Monday next. All those who have been considering the purchase of a farm are requested to call in at once and make their selection.

A cordial invitation is also extended to the many purchasers of land to visit our car and give the gentlemen on the car a farewell greeting and a hearty hand-shake.

To those who have not been on our car, we would make an urgent request that you visit us some day or evening of this week. Remember, our terms up to and including Oct. 30th, are \$10.00 down and \$10.00 per month; after that date, the terms will be \$20.00 down and \$10.00 a month, without interest or taxes, un-

Mr. Fuller, the General Emigration Agent of the Iron Mountain Railrocad, a thoroughly well posted land man, makes the positive assertion that the lands we are selling will in ten years be worth \$1000 to \$1500 per acre, and when you consider what can be grown on an acre of this land, it is not hard to believe that his assertion is correct. A car of cantaloupes this year from one acre of land in our country brought \$2400; 40 acres of Bermuda Onions. according to the shipping record of the Iron Mountain railroad, sold for something over \$41,000; two year old pecan trees, properly cared for, for five years, will produce from \$300 to \$500 per acre, and the production will increase each year for a life time until the annual production will amount to several thousand dollars per acre. The same holds good for the seedless Magnolia Fig. the Satsuma Orange and other fruits.

To those who are entirely satiswed with their present condition in life and wish nothing better, we have nothing to say. We come to those only who are desirous of bettering their condition and who realize that all they need is the proper opportu-

We come to you with this opportunity and we appeal to you as rational, right-minded, thinking people, which is a last appeal and we wish you to weigh this matter carefully before making a final decision to reject our proposition. We solicit a thorough investigation, positively guaranteeing every statement that we make, and we leave it to you to decide.

Here is one of the cows which supplies milk to your neighborsthe people who use Van Camp's.

This cow won the Van Camp cup, which we offered to encourage the breeding of high-grade cows. Milk from such cows, fed in America's best dairying sections, will cost you less than any milk you get from mongrel cows.

And it comes to you pasteurized-free from germs. It is the finest milk which this country produces-the equal of any Swiss milk.

Thick as Cream

Right at the dairy, in a mode .ate heat, we evaporate two-thirds of the water. This is done in a copper vacuum, in the cleanest

We add nothing whatever to the milk. We take out nothing but water. Use it as it comes to you and you have thick cream-28 per cent solids, 8 per cent butter fat. Put back the water and you have fresh, rich milk, just as it came from the cow, save for the sterilization.

Rich Milk Dishes

. Van Camp's Milk, used in cooking, produces superlative dishes. The flavor is such as you never get in any milkman's milk. It is the flavor of whole, rich milk.

Milkman's milk separates. Milk dipped from a

can is never whole-milk. By the time it gets to your cooking it is rarely more than a half-milk. So many people never know what rich milk dishes whole-milk makes. You will know when you use Van Camp's.

Milk Fresh From These

Cup-Winning Cows

Costs Less Than Your Milkman's Milk

Utterly Germless

This milk is pasteurized, as all milk should be. There's not a germ of any kind in it. Think what it means for all table uses to have milk free from germs.

You can buy, if you wish, a month's supply at a time. Then you have milk and cream for any purpose-all you want at any time. You have none left over-none to waste-for the opened can keeps till you use it up.

And the milk, remember, is the finest milk that high-bred cows produce. It is always the

Milk Bills Cut in Two

The curious fact is that this ideal milk costs less than milkman's milk. We save you the cost of the daily delivery, which means about 4 cents per quart. And we save you all the waste. The use of Van Camp's, in most homes, cuts milk hills right in

We milk 30,000 cows daily to supply folks who want this milk. And no people in the world get better milk than they get every day,

The 16-ox. can-a full pint of Van Camp's—costs 10 cents. The 6-oz. can costs 5 cents. That's with two-thirds of the water evaporated. Your grocer gets it direct from our

LAWRENCE COUNTY GOES OVER TO WETS

Ironton, O., Oct. 27 .- The Business Men's Association won its fight against local option by a majority of about 425 in the county. Monton gave the wets a majority of 825. A great jollification was held on the streets last night, but no ill feeling devel-

Lawrence county voted dry three years ago by over 1500 and Ironton

In the present election 28 precincts out of 31 give the wets a majority of 464, and the remaining three precincts cannot change the result materially. There were few disorders, and these were of a very minor nature.

The campaign far exceeded in intensity that of three years ago. Both sides left no stones unturned, and speeches were held throughout the county and on the street corners and indoors in this city. Besides local speakers, Wayne B. Wheeler, P. A. Baker, Seaborn Wright and Mrs. Lulu Shepard spoke for the drys, and C. A. Windle, Rev. Meeker, Captain Morgan Smith and C. Homer Durand for the wets.

The Women's Christian Temperance Union took great interest in the fight, and with many school children and headed by two bands paraded the principal streets of the city yes-

terday morning.

The Ebert brewery, which has been closed for over two years, will resume operatons at an early date, and several saloons are preparing to reopen at once. The failure of local option to prohibit the illegal sale of liquor here and the large amount of money spent outside of the city for liquor is largely responsible for the big landslide yesterday.

STATEMENT OF WAYNE B. WHEELER

Columbus, Oct. 27 .- "The loss of hese two counties will serve a good ourpose in waking up other counties to the danger of being overconfident. said Wayne B. Wheeler, state superintendent of the Anti-Saloon League,

last evening.
"We do not believe that many of the present dry counties will vote wet. We feel that those that are organized and get out the vote will remain in the dry column."

DECLARE VICTORY IS REPUDIATION OF THE ROSE LAW

Cincinnati, O., Oct. 27 .- The reurns from the elections were receivby a little group of interested brewers and distillers in the head-quarters of the Personal Liberty League on West Eighth street, last night. Secretary Hess, after the result was known, made this statement

"The outcome in Lawrence and Scioto counties has proven that the Rose county prohibition law has peen such a rang failure that the people repudiated it on the very first test. These countles, in common with every so-called dry county in Ohio have been overrun with speakensies and bootleggers; drunkenness has been rampant, and taxes have gone up alarmingly. Hundreds of emperance advocates have been disgusted. Their votes clearly demon-

strated this. "Today's vote was a very fair test and the results indicate a real change in sentiment. Lawrence county paricularly was rural, and former dry farmers joined in the repudiation. The result in Scioto county was a decided slap at Judge Blair, who led the dry forces there. In both counties the business men and leading citizens led the wet fight; they were thoroughly tired of having their affairs dictated by imported reformers.

"In the succeeding campaigns there may be counties that will remain dry-counties where there is no real demand for the saloon. But in the counties where prohibition was forced upon an unwilling people, county prohibition is placed in the class of state prohibition. Both are absolute failures.

No smoking—no burning

All cook books say that to fry in lard, you must get it "smoking hot."

At 400 degrees, lard begins to smoke and burn. To fry with it, you often have to fill your kitchen with smoke, and the burnt lard makes black specks on the food.

You can heat Crisco very much hotter than lard and it will not burn or smoke.

You can heat it so hot that it fries foods in half the time required with lard and no distasteful "frying odor" permeates your dining room and kitchen.

Crisco fried foods never have burnt black specks because Crisco does not burn. You will find they are the most appetizing looking fried foods you have ever seen.

> In frying with lard you have noticed how you have to keep adding more. With Crisco, you never have to do this. This shows how economical

STOCKS TUMBLE

New York, Oct. 27.-The stock market opened today, excited, weak and leverish due to the news of the government's steel trust busting suit. In United States Steel common there was a decline of five points over last night's closing prices. At the opening of the market steel common glided to 53 1-2.

In three quarters of an hour under constant selling steel common receded to 52 1-8, a decline of 6 points over last night's closin gprice. In the first twenty minutes one hundred and twenty-five thousand shares of steel common changed hands.

to the suit to dissolve the steel trust and the case jumped into the forefront of the already complicated presidential campaign.
The Democrats claim credit for

forcing the administration to act through the investigation conducted by the Stanley committee of the house as Representative Stanley, democrat, of Kentucky, has been demanding an investigation of the steel trust for several years. They charge that the Republicans are attempting to head off the Democratic work and stall Stanley. The Taft forces point to the suit in support of their claim that the administration is really going to buck the trusts. The anticalled the suit a grand stand play designed for election purposes.

Not a Sensational Sale

The closing out sale of the John Meridith stock is not particularly sensational. Nobody ever claimed that. No sensational newspaper headlines. No misleading circulars. No misrepresented or War Declared prices. No monkeying with the original price ticket. Just a clean, peaceful sale of a grand good stock of Suits, Over coats and Furnishings from the John Meridith stock. The hundreds who have visited this sale will attest these facts. There are hundreds of bargains for those who have not yet bought their Winter Clothing needs.

UTICA WOMAN MEETS DEATH EARLY TODAY

Miss Jane Stitt, Aged and Wealthy Spinster, the Victim—Lived Alone Near Railway Track.

Utiea, Oct. 27. Miss Jane Stiff, age \$2 years, one of Utica's eldest residents, was instantly killed near her home Friday morning when she was struck by a local freight train and hurled from the track. Both arms and both legs were broken and she was dead before any one reached her

accident was witnessed by George Sperry and a number of glass workers who were on their way to the factory but before any of these spectators reached her side the unfortunate woman had expired.

Miss Stitt has resided in Utica probably 40 years or more. For many years she made her home with a nophew. James H. Kirkpatrick, but few years ago she built a small house near the railroad and within sight of the Kirkpatrick home where

she has since resided. Friday morning Miss Stitt took pan of parings to the stock pens a short distance from her home. She was returning across the track when she was run down by the freight

Although well up in years Miss Stiff was remarkably well preserved and always did her own housework and walked about the village calling on friends the same as in her younger No one has been able to explain why she failed to note the approach of the train which caused her

Miss Stitt's sister, Mr. Kirkpatrick's mother, was one of the pioneer residents of this section and the family came here from Muskingum county many years ago. Numerous relatives reside in Muskingum county.

Miss Stitt was quite wealthy and had numerous investments in Utica No funeral arrangements have been
